Institutional Distinctiveness

Our programs are designed such that they provide learning environment and opportunities to our students. Some of these programs are directly concerned with the students' own health, while others are concerned with the various sections of the community. Suresh Gyan Vihar University is committed for encouraging contributions to National development through various communities & clubs like wellness community, smile community, TCL community, seed community, sporty community, hyphen community, axiom community, green community, CAC community, i-tech community, map community; which perform/organize various task in the campus such as:

- The university is located in an urban area but committed to provide higher education to the down bidden, rural students and international students from developing countries.
