From The Desk of Hon'ble Chairperson

I am privileged and honored to present the Annual Report for the academic year 2022-23 of Suresh Gyan Vihar University which was ranked by NIRF in the rank band 150-200 in the year 2023 for maintaining high academic and research standards. In the year 2023, the School of Pharmacy also achieved the 59th NIRF Rank among the top 100 institutions of India. We received ICAR accreditation for B.Sc. (Hon.) Agriculture program for 5 years which is a remarkable achievement. Also, we got approval of Rehabilitation Council of India (RCI) for the conduction of M.Phil. Clinical Psychology.

We found various new and innovative platforms and ways of delivering our work digitally. Staff and students have shown tremendous dedication and flexibility this year. I am incredibly proud of what we have achieved together. SGVU has been vibrant and bustling in terms of laurels, seminars, conferences, HR conclave, achievements, initiatives, and Institutional Social Responsibility related activities. From the employers' perspective India is facing serious headwinds with not only the issues of low employment but also a significant gap in employability of passing out graduates.

The courses offered by our university not only enable the students to develop a gamut of skills but also apply them to real-world problems, thus fast-tracking their careers. The processes of teaching, training and evaluation follow the latest trends in technology and commerce. Education, thus, rather than being lecture oriented, didactic and traditional, is more student-driven.

Suresh Gyan Vihar University's expertise in research creates awareness and serves the community by a consolidated determination to increase the effect of research on human civilization. In the year 2022, SGVU came up with several new patents and research publication in various National and International (WoS/SCI/SCOPUS/UGC-CARE indexed) Journals.

I sincerely express my thanks to our esteemed team members for the contribution to the present Annual Report 2022-23 with full honesty and dedication.

With Best Wishes

From The Desk of Hon'ble Chief Mentor

Suresh Gyan Vihar University has been making a significant contribution to society by spreading value-based education keeping the present education system in mind. In fact, it is the organization which has set high standards in education while maintaining a balance between Technicality and Modernity. In recent years, SGVU has taken some crucial steps in its pursuit of excellence. Some of these are modernization of infrastructure in campus, introducing technology in teaching-learning process, creating a network of people all over the globe through Alumni Foundation. While SGVU feels proud of its achievements, it is yet not complacent. Its vision is to be crowned as the finest educational organization. Its mission is man making, dispelling knowledge values. Our success in this endeavor has the potential of making our society free from prejudices and vices.

The world is moving fast and rapidly changing. New technologies keep invading most industries, transforming work processes and expectations, therefore, the Universities need to start up vocational and skill development programs so that they could make the students industry ready. Skill development is the process of identifying skill gaps and to develop these skills to execute the plans with success. SGVU focuses on industry-institution partnerships and therefore multi entry & we have many tie-ups/global linkages with industries like Google, Amazon, BSE etc and academic MoU's with International Institutions to provide global exposures to the students for higher studies, certification under CBCS system, research field collaboration with Harvard Business School Publishing (HBSP), Coursera, NPTEL (Local Chapter) etc. In the continuation of this, in session 2022-23 we have done more tie-ups to make the students industry ready. Such great achievements bear testimony to the fact of our growing high Academic status towards making the University unique as per the "Word Class Standards". More than 10000 alumni placed globally are the witness as of success or remarkable growth of Gyan Vihar University.

I would also like to extend my thanks to the team SGVU whose dedication and professionalism contributes so much to our achievements making it possible for us to provide success to the thousands of students we serve.

With Best Wishes

From The Desk of Hon'ble President

Today's world is changing at such a rapid pace that we, as educators, must take a step back and reflect on our entire educational system. The primary goal is to provide gifted students in rural areas with high-quality modern education that includes a strong component of cultural values, environmental awareness, and physical education, regardless of their family's socioeconomic status. A dedicated and supportive administration, dedicated teachers, and loving and cooperative parents all work together to make the university a student-centered institution. Higher education

now aims to motivate and equip students to be lifelong learners, critical thinkers, and productive citizens of an ever-changing global society, in addition to pursuing academic achievement. SGVU provides an amalgam of scholastic and co-scholastic activities in order to transform everyone into a self-reliant and autonomous citizen.

Education entails not only the acquisition of information, but also the acquisition of values that enable us to better the various aspects of humanity. Education has a critical role in molding an individual's personality into a healthy mind and happy soul capable of not only academic excellence but also of facing life's problems in a balanced and harmonious manner. As a result, education should serve as a catalyst in developing our youth into a well-rounded human being with his or her basic qualities anchored in learning experiences derived from our diverse socio-cultural heritage.

I congratulate the editorial team for the successful compilation of our “Varshik Vishleshika”, the SGVU Annual Report'2022-23.

With Best Wishes

From The Desk of Hon'ble Pro-President

Gyan Vihar is unique in its way of quality teaching, career-oriented programs and its philosophy of education through different learning style. Being student-centric University, we have introduced the SUCCESS-SCORE system to evaluate themselves that where they stand with their success score.

For example; the students will be having a particular score as per their academic performance in the semester exam but whenever a student joins any value added course or program like workshop/ training/ internship/ short term course/ seminar/ conference and achieves the certificate, the score will be adding up along with the semester academic performance score in the success score and this will help him to improve himself/herself accordingly, the student will be able to know where he/she is lagging

We design our curriculum set course delivery and take leads based on industry needs. We have the industry partners to help us in making sure that the outcome of any program of SGVU should always be 'industry ready'.

Through the community clubs, we focus all around development of the students so that they can contribute to the society in a positive mind set during and after learning at SGVU. We provide the facility to make them entrepreneur and for this Gyan Vihar has its own Entrepreneur and Innovation Cell infrastructure where students can have the tips of being entrepreneur through the successful entrepreneur by joining the interacting sessions with them.

It is my priority to take SGVU to its next leg of growth and I am confident that this developmentmatrix will support this agenda. I look forward to your continued encouragement in this journey and my sincere appreciation to the Management for all their support and trust.

With best wishes

From The Desk of Hon'ble Registrar

An annual report reflects the summary of all the activities of the University held during the year. Being a leading university of the state of the Rajasthan, we have much more responsibilities to contribute to society not only to provide best education in an academic environment, but also to have good participation for developing innovative research & practices.

SGVU has signed a landmark partnership agreement with renowned International Universities which promote faculty-student

Mobility between the two universities. In the scenario of unemployment and the trending downfall in the economy, the University is trying to fill up the gap between industry-academia by collaborating with industries and to prepare the students industry-ready.

SGVU produces high quality future ready graduates with opportunities to be trained, interned and employed with global corporations. Various placement activities, community clubs and different strategies for overall development of students make this University unique, I am sure that SGVU will have a bright future in the coming years.

I congratulate the editorial team of the Annual Report of 2022-23 for successfully compiling all the activities of the university.

With Best Wishes
