General Meaning of Copyright

Suresh Gyan Vihar University International Journal of Environment Sciences and Technology is dedicated to continuously support the widest possible scientific, scholarly and technical researches through innovative and creative online publishing policy and practice with the highest standards of peer review. It is committed to good stewardship of the scholarly record, and to managing the authors' Intellectual Property Rights (IPR). The research in its written form submitted for consideration to the *Suresh Gyan Vihar University International Journal of Environment Sciences and Technology* gets reputation and prestige because of its peer review processes through highly qualified technocrats and scientists community (some are enlisted in the editorial and review board). *Suresh Gyan Vihar University International Journal of Environment Sciences and Technology* accepts the 'first' publication(s) only in electronic form(s) for an original article that has been through a rigorous and equitable peer review process, as opposed to any subsequent publication in a secondary medium. 'Exclusive publishing right (EPR)' is taken to mean the exclusive right (with the exception of an agreed version of a paper that an Author may place on a website) to reproduce and communicate to the public the whole or any part of the article, and to publish the same throughout the world in any format and in all languages for the full term of copyright. This includes without limitation

the right to publish an article in print form, electronic form, other data storage media, transmission over the Internet and other communication networks and in any other electronic form, and to authorize others to do the same. *Suresh Gyan Vihar University International Journal of Environment Sciences and Technology* prefers the authors to assign copyright to *Suresh Gyan Vihar University International Journal of Environment Sciences and Technology*, the Editor-in-Chief, but accept that authors may prefer to give *Suresh Gyan Vihar University International Journal of Environment Sciences and Technology* an exclusive license to publish. Copyright assignment has the advantage of elimination of ambiguity such as in negotiating subsidiary licenses or in dealing on an author's behalf with plagiarism, abuse of moral rights, protecting intellectual property or copyright infringement. We are at least granted exclusive rights because of the needs of the scholarly community for certainty in the scientific record. There is a requirement for a clear and unambiguous record of the scholarly or scientific process, with validated authentication of the final version of an article which has been edited, peer-reviewed and accepted in a journal which confers a recognized, legitimate status on an article.
